Dear Mr.Giannitto Sebastiano and Students

We would like to convey to all the students involved with the war records and history project the following.

It is very difficult to put into words the effects your project can have on many relatives of the fallen from all sides during the war. We can only say that Mary has waited for well over half a century to see her Fathers grave and the facts behind his sad passing. Without your personal help and your project that would never have been possible. We are certain that many other people will also benefit as we did from your efforts. The website is absolutely marvellous and a credit to all of you. It will enable people all over the world to get information they would otherwise never have been able to obtain without your efforts.

We cannot put into words how much this has meant to us but we can say that your efforts will allow many people to at the very least see that their loved ones are resting in a beautiful site in a beautiful country looked after by lovely warm friendly people.

We also hope that your project will help people to realise the absolute waste and futility of war and the damage it inflicts on so many many lives in many many nations.

Please convey to all the students our heartfelt thanks and very best wishes for their future careers.

Our Fondest Regards

And Godbless you all

Mary Linskill McConaghy & Frank McConaghy.
